1 Sept 54

25X1A6a

"KLM negotiations with the South African Government about the planned restrictions on the Amsterdam-Johannesburg frequency have been successfully concluded by the Dutch representatives. KLM will be allowed to continue a biweekly service on Johannesburg. The long-years pool between KLM and SAS on different West European services will end on 1 Jul 54. The reason for termination is that SAS believes the pool-coefficients were almost identical to the actual receipts of both partners, hence no pooling is considered to be necessary. *[Redacted]* 7"
